

Polish International Sudoku Championship

We invite puzzelers and sudoku fans from all over the world for The Polish International Sudoku Championship. It will be conducted on its organizers (Polish Society of Games and Puzzles Fans) website – www.sfinks.org.pl/sudoku.php on Saturday 3rd March 2007. The championship will start at half past noon (0.30 pm GMT+01:00; Central European Time) and will be closed at midnight (12 pm) the same day. The championship is also first round in Polish qualifications for the II World Sudoku Championship.

The winner, as International Polish Sudoku Master, will receive a special sudoku cup and an invitation as a special guest for last round of Polish qualification for II World Sudoku Championship (organizers will cover costs of a 2 day stay in a hotel in Warsaw).

All you need for participation (registration form, instructions, the puzzles and the answer page, puzzle examples with descriptions) can be found on the organizers website: www.sfinks.org.pl/sudoku.php.

If you want to compete in the championship you have to register once. The best way to do it is to do it now. Registered participants will receive an email reminding them of the championship. So go to the registration page to sign up; also try the examples of puzzles and check the rules for more information. Puzzles will be the same type as puzzles examples on this website so it is worthy to solve the given examples.

The Polish International Sudoku Championship is an open championship – all stuff will be available in two languages Polish and English. It will consist of 8 sudoku puzzles. On Saturday, 3rd of March 2007, at half past noon the puzzles will become available on SFINKS website. At the same time the answer page for sending answers via which you can submit your answers will become available. Answer page will be closed at midnight the same day. It is allowed to send answers only once. Next answers from the same participant will be invalid.

The contestant who solves the most puzzles wins the championship. If two contestants send answers with the same amount of solved puzzles – the quicker one wins.

As soon as the championship is over, a list with the results of all participants will be published.

The championship is organized and realized by the Polish Society of Games and Puzzles Fans SFINKS - www.sfinks.org.pl. Its aim is to promote solving puzzles, especially sudoku puzzles and bring together puzzelers from all over the world.

Best Regards

Jacek Szczap
